## EXECUTIVE SUMMARY

---

My research explores the ecological determinants of real-world population dynamics. I use empirical data, numerical simulations, and statistical models to elucidate ecological mechanisms. My work draws upon the theory and methodology of mathematics, statistics, and computer science, as well as chemistry, physics, and earth sciences. I am especially interested in stochastic extinction and persistence, partially observed Markov processes, and population responses to perturbation. At present, my study systems include childhood diseases in the pre-vaccine era U.S., and mosquito population dynamics in Iquitos, Peru.

My core areas of expertise include: mechanistic ecological simulation models; stochastic processes; data visualization; numerical programming; time series spectral analysis; and linear and generalized linear modeling. I am also interested in automated data acquisition and remote sensing. I employ a range of open source computing tools: the R and C++ programming languages; PostgreSQL and SQLite database systems; and the geospatial tools PostGIS and QGIS. I employ reproducible research tools and best practices, including revision control with git.

I enjoy teaching and mentoring students from diverse backgrounds and experience levels. My teaching and mentorship focuses on quantitative skills, where I favor real-world examples and student-led inquiry. I believe that rigorous quantitative training is critical for next generation of data-driven scientists. I aim to increase student access to and personal investment in probability and statistics, scientific programming, and reproducible research methods.

## EDUCATION

---

### University of New Mexico, Albuquerque

*Summer 2014*

Ph.D. with Distinction in Biology (Disease Ecology with concentration in Integrative Biology)

Committee: Drs. Helen J. Wearing (advisor), James H. Brown, Melanie Moses, and Erik Erhardt

Title: Population and metapopulation ecology of childhood diseases in the pre-vaccine era United States

### University of New Mexico, Albuquerque

*Fall 2009*

Masters of Water Resources (Riparian Hydroecology)

Advisors: Drs. Bruce Thomson and Roy Jemison

Title: Estimating phreatophyte evapotranspiration from diel groundwater fluctuations in the Middle Rio Grande Bosque

### University of Georgia, Athens

*Fall 2001*

Bachelor of Science, Biochemistry and Molecular Biology

Advisor: Dr. James Omichinski

## PEER-REVIEWED PUBLICATIONS

J. Nightingale†, M. Holstad, **C.E. Gunning**. Temperature-dependence in sewer blockage frequency. In Prep. Draft available on request.

## RESEARCH EXPERIENCE

---

### Post-doctoral Researcher

Oct 2014 - Present

Departments of Entomology and Mathematics, NCSU

Raleigh, NC

- Data integration, visualization, and statistical analysis of *Aedes aegypti* field spraying trials in Iquitos, Peru
- Continue development of Skeeter Buster of *Aedes aegypti* population dynamics simulation model
- Mentor graduate students in Mathematics and Entomology

### Research Assistant

Jan 2010 - Oct 2014

Wearing Lab, UNM Biology

Albuquerque, NM

- Conduct original research for publication and assist with grant writing
- Systems administrator and data manager
- Undergraduate training and mentorship

### Hydrology Research Technician

Jan 2006 - Jan 2009

Rocky Mountain Research Station, U.S. Forest Service

Albuquerque, NM

- Conduct original research and prepare technical reports for U.S. Forest Service
- Collect and managed environmental monitoring data

### Plant Genetics Lab Technician

Jun 2003 - Jun 2004

Malmberg Lab, UGA Plant Biology

Athens, GA

- Isolated DNA, Conducted PCR
- Design data entry and management system

### NMR Lab Technician

Jan 2001 - Jun 2002

Omichinski Lab, UGA Biochemistry and Molecular Biology

Athens, GA

- Administer mixed Unix workstation cluster
- Evaluate linux hardware/software for high-performance NMR data visualization

## GRANTS

---

Jun 2011 (\$2,000). UNM PiBBS Student Enrichment Grant to attend SFI Complex Systems Summer School.

May 2010 (\$500). EEID Conference Workshop travel grant.

Mar 2010 (\$80,000). Center for Evolutionary & Theoretical Immunology (CETI) Seed Grant, Waning Immunity in Influenza and Whooping Cough, Contributing author.

Aug 2009 ( $\approx$ \$50,000). Program in Interdisciplinary Biological and Biomedical Sciences (PIBBS), 2 year fellowship.

May 2007 (\$4,400). UNM Graduate Research and Development grant, Hydrological research in the Middle Rio Grande Bosque.

## AWARDS

---

Apr 2013 (\$500). UNM Biology Department Scholarship.

Apr 2013 Graduate oral presentation, 2<sup>nd</sup> place. UNM Biology Research Day.

Apr 2010 (\$500). UNM SRAC travel grant to attend useR 2010.

Apr 2010 Graduate poster presentation, 1<sup>st</sup> place. UNM Biology Research Day.

## CONTRIBUTED TALKS

**C.E. Gunning, H.J Wearing.** Stochasticity, persistence, and extinction in measles (meta)populations: Are we measuring what we think we're measuring? Ecology & Evolution of Infectious Disease (EEID) Conference. Ann Arbor, MI. May 2012.

**C.E. Gunning.** Using wavelets to detect synchrony of influenza between U.S. states. UNM Biology Research Day. Albuquerque, NM. Apr 2010.

**C.E. Gunning.** Linear Modeling of the Response of Groundwater Level to River Flow in the Middle Rio Grande Bosque, Water Year 2006. National Groundwater Association (NGWA) Conference. Albuquerque, NM. May 2007.

## **TEACHING**

---

### **INSTRUCTOR**

#### **Probability for Scientists**

Fall 2013, UNM Biology and Statistics

- Course designer, lead instructor
- Mixed undergraduate/graduate course (primarily undergraduate)
- Hands-on course covering introductory probability, statistics, and data analysis

### **TEACHING ASSISTANT**

#### **Biology for Non-majors**

Spring 2014, UNM Biology

#### **Statistical Programming**

Spring 2013, UNM Statistics

- Mixed undergraduate/graduate course (primarily graduate)
- Also guest lectured

#### **Mathematical Biology**

Fall 2012, UNM Biology

- Mixed undergraduate/graduate course (primarily undergraduate)
- Also guest lectured

#### **Genetics**

Spring 2009, UNM Biology

#### **Ecology & Evolution**

Fall 2008, UNM Biology

- Assisted in writing course material

### **GUEST LECTURER**

#### **Theoretical Ecology**

Spring 2015, Univ. of Montana

- Also assisted students with R

### **WORKSHOPS AND TRAINING**

#### **Computational Skills for Scientists Training Workshop**

Aug 2016, Univ. of Montana

- Guest lecturer

#### **Industrial Math/Stat Modeling Workshop for Graduate Students**

July 2015, NCSU

- Guest instructor, student mentor

#### **Software Carpentry Workshop**

Jan 2015, NCSU

- Teaching assistant, guest lecturer

#### **UNM R Programming Group**

Fall 2010 - Spring 2013, UNM

- Organized and led weekly R programming group
- Participants included undergraduate and graduate students and professors

## **Ecology Workshop**

May 2010, Univ. of Michigan

- Teaching assistant
- NSF-funded graduate training program, part of Ecology and Evolution of Infectious Disease conference

## **MENTORING**

---

Spring 2015 - present. Robert Liberatore, Math Education Software Developer

Fall 2015 - present. Michael Vella, NCSU Mathematics Ph.D. Student

Fall 2015 - present. Gabriel Zilnik, NCSU Entomology Masters Student

Fall 2012 - Fall 2015. Joshua Nightingale, UNM Biology Undergraduate Student

Spring 2011 - Spring 2012. Nathan Cournoyer, UNM Biology Undergraduate Student

## **CONFERENCES AND PROFESSIONAL EVENTS**

---

Sep 2015. Society of Vector Ecology Conference. Albuquerque, NM.

Nov 2014. American Society of Tropical Medicine and Hygiene Annual Conference. New Orleans, LA.

Jun 2014. Ecology and Evolution of Infectious Disease Conference. Colorado State University. Fort Collins, CO.

May 2013. Ecology and Evolution of Infectious Disease Conference. Pennsylvania State University. State College, PA.

May 2012. Ecology and Evolution of Infectious Disease Conference and Workshop. University of Michigan. Ann Arbor, MI.

Oct 2011. Rcpp R Programming Master Class. San Francisco, CA.

Aug 2011. Ecological Society of America Conference. Austin, TX.

Jun 2011. Santa Fe Institute Complex Systems Summer School. Santa Fe Institute. Santa Fe, NM.

Jul 2010. useR 2010 Conference. Gaithersburg, MD.

May 2010. Ecology and Evolution of Infectious Disease Conference and Workshop. Cornell University. Ithaca, NY.

Aug 2009. Ecological Society of America Conference. Albuquerque, NM.

May 2007. National Groundwater Association Conference. Albuquerque, NM.

## **PROFESSIONAL SERVICE**

---

Reviewer, Ecology Letters.

Reviewer, Theoretical Ecology.

Grant reader, Graduate Research Allocations Committee (GRAC). UNM Biology.

## SOFTWARE DEVELOPMENT

---

Fall 2014 - Present. Develop and maintain Skeeter Buster: a stochastic, spatially-explicit, agent-based C++ simulation model of *Aedes aegypti* population dynamics.

Spring 2013. Wrote code, documentation, and tests according to specifications of Drs. J. M. Rowland and C. Qualls for **discrimArts**: R package for probability distribution estimation.

2010 - 2012, ongoing. Contributor to **Rcpp**: R package for C++ development.

2009 - 2012. Maintainer of **Rwave**: R package for continuous wavelet transforms.

2010 - 2011. Contributor to **xts** and **zoo**: R packages for time series handling and analysis.
