## BACKGROUND

---

My research employs a dynamical systems interpretation of population and community ecology, with a focus on discrete, stochastic systems and processes. I use empirical data, numerical simulations, and modern statistical methods to identify key determinants of population dynamics. I am particularly interested in stochastic extinction and persistence, population response to human perturbations, and demographic founder events such as colonization and development of resistance. My study systems include childhood diseases in the pre-vaccine era U.S. and mosquito population dynamics in Iquitos, Peru.

My research is facilitated by cutting-edge quantitative tools: the R and C++ programming languages for data visualization, numerical simulation, and statistical modeling, as well as SQL for advanced data management. I use reproducible research best practices to maximize work efficiency and quality.

I have extensive experience teaching and mentoring students from diverse backgrounds, and believe that student training is critical to developing the next generation of data-driven scientists. In particular, I aim to increase student access to probability and statistics, scientific programming, and reproducible research methods.

## EDUCATION

---

### University of New Mexico, Albuquerque

*Summer 2014*

Ph.D. with Distinction in Biology (Disease Ecology with concentration in Integrative Biology)

Advisor: Dr. Helen J. Wearing

Committee: Drs. Jim Brown, Melanie Moses, and Erik Erhardt

Title: Population and Metapopulation Ecology of Childhood Diseases in the pre-vaccine era United States

### University of New Mexico, Albuquerque

*Fall 2009*

Masters of Water Resources (Riparian Hydroecology)

Advisors: Drs. Bruce Thomson and Roy Jemison

Title: Estimating Phreatophyte Evapotranspiration from Diel Groundwater Fluctuations in the Middle Rio Grande Bosque

### University of Georgia, Athens

*Fall 2001*

Bachelor of Science, Biochemistry and Molecular Biology

Advisor: Dr. James Omichinski

## GRANTS AND AWARDS

---

Apr 2013 (\$500). UNM Biology Department Scholarship.

Apr 2013. Graduate oral presentation, 2<sup>nd</sup> place. UNM Biology Research Day.

Jun 2011 (\$2,000). UNM PiBBS Student Enrichment Opportunities Grant to attend SFI Complex Systems Summer School.

May 2010 (\$500). EEID Conference Workshop travel grant.

Apr 2010 (\$500). UNM SRAC travel grant to attend user2010.

Apr 2010. Graduate poster presentation, 1<sup>st</sup> place. UNM Biology Research Day.

Mar 2010 (\$80,000). Center for Evolutionary & Theoretical Immunology (CETI) Seed Grant, Waning Immunity in Influenza and Whooping Cough, Contributing author.

Aug 2009 ( $\approx$ \$50,000). Program in Interdisciplinary Biological and Biomedical Sciences (PIBBS) 2 year fellowship.

May 2007 (\$4,400). UNM Graduate Research and Development grant, Hydrological research in the Middle Rio Grande Bosque.

## TEACHING

---

### **Theoretical Ecology**

Spring 2015, University of Montana

- Guest lecturer, student facilitator

### **Probability for Scientists**

Fall 2013, UNM Biology

- Course designer, lead instructor
- Mixed undergraduate/graduate course (primarily undergraduate)
- Hands-on course covering introductory probability, statistics, and data analysis

### **Statistical Programming**

Spring 2013, UNM Statistics

- Teaching assistant, guest lecturer
- Mixed undergraduate/graduate course (primarily graduate)

### **Ecology Workshop**

May 2010, Univ. of Michigan

- Teaching assistant
- Workshop was part of the annual Ecology and Evolution of Infectious Disease conference

### **Undergraduate Biology Courses (various)**

2008, 2009, 2014, UNM Biology

- Teaching assistant for: Ecology & Evolution; Genetics; and Biology for Non-majors.

## MENTORING

---

### **Computational Skills for Scientists Training Workshop**

Aug 2016, Univ. of Montana

- Guest lecturer

### **Industrial Math/Stat Modeling Workshop for Graduate Students**

July 2015, NCSU

- Guest instructor, student mentor

### **Software Carpentry Workshop**

Jan 2015, NCSU

- 
- Teaching assistant, guest lecturer

### **UNM R Programming Group**

Fall 2010 - Spring 2013, UNM

- Organized and led weekly R programming group
- Participants included undergraduate and graduate students and professors

### **Mentees**

- Spring 2015 - present. Robert Liberatore, Math Education Software Developer
- Fall 2015 - present. Michael Vella, NCSU Mathematics Ph.D. Student
- Fall 2015 - Fall 2016. Gabriel Zilnik, NCSU Entomology Masters Student
- Spring 2011 - Spring 2012. Nathan Cournoyer, UNM Biology Undergraduate Student

## **RESEARCH EXPERIENCE**

---

### **Post-doctoral Researcher**

Oct 2014 - Present

*Departments of Entomology and Mathematics, NCSU*

*Raleigh, NC*

- Statistical analysis of field trial results
- Continue support and development of stochastic & spatially explicit C++ simulation of *Aedes aegypti* in Iquitos, Peru.
- Mentor graduate students

### **Research Assistant**

Jan 2010 - Oct 2014

*Wearing Lab, UNM Biology*

*Albuquerque, NM*

- Conduct original research for publication
- Assist with grant writing
- Systems administrator and data manager
- Mentor undergraduates

### **Hydrology Research Technician**

Jan 2006 - Jan 2009

*Rocky Mountain Research Station, U.S. Forest Service*

*Albuquerque, NM*

- Conduct original research and prepare technical reports for U.S. Forest Service
- Collect and managed environmental monitoring data

### **Plant Genetics Lab Technician**

Jun 2003 - Jun 2004

*Malmberg Lab, UGA Plant Biology*

*Athens, GA*

- Isolated DNA, Conducted PCR
- Design data entry and management system

### **NMR Lab Technician**

Jan 2001 - Jun 2002

*Omichinski Lab, UGA Biochemistry and Molecular Biology*

*Athens, GA*

- Administer mixed Unix workstation cluster
- Evaluate linux hardware/software for high-performance NMR data visualization

---

## CONFERENCES AND PROFESSIONAL EVENTS

---

Sep 2015. Society of Vector Ecology Conference. Albuquerque, NM.

Nov 2014. American Society of Tropical Medicine and Hygiene Annual Conference. New Orleans, LA.

Jun 2014. Ecology and Evolution of Infectious Disease Conference. Colorado State University. Fort Collins, CO.

May 2013. Ecology and Evolution of Infectious Disease Conference. Pennsylvania State University. State College, PA.

May 2012. Ecology and Evolution of Infectious Disease Conference and Workshop. University of Michigan. Ann Arbor, MI.

Oct 2011. Rcpp R Programming Master Class. San Francisco, CA.

Aug 2011. Ecological Society of America Conference. Austin, TX.

Jun 2011. Santa Fe Institute Complex Systems Summer School. Santa Fe Institute. Santa Fe, NM.

Jul 2010. useR 2010 Conference. Gaithersburg, MD.

May 2010. Ecology and Evolution of Infectious Disease Conference and Workshop. Cornell University. Ithaca, NY.

Aug 2009. Ecological Society of America Conference. Albuquerque, NM.

May 2007. National Groundwater Association Conference. Albuquerque, NM.

## PROFESSIONAL SERVICE

---

2015. Reviewer, Ecology Letters.

2014. Reviewer, Theoretical Ecology.

Mar 2009. Grant reader, Graduate Research Allocations Committee (GRAC). UNM Biology.

## SOFTWARE DEVELOPMENT

---

Fall 2014 - Present. Develop and maintain Skeeter Buster: a stochastic, spatially-explicit, agent-based C++ simulation model of *Aedes aegypti* population dynamics.

Spring 2013. Wrote code, documentation, and tests according to specifications of Drs. J. M. Rowland and C. Qualls for **discrimArts**: R package for probability distribution estimation.

Oct 2010 - Mar 2012. Contributor to **Rcpp**: R package for C++ development.

2009-2012. Maintainer of **Rwave**: R package for continuous wavelet transforms.

2010-2011. Contributor to **xts** and **zoo**: R packages for time series handling and analysis.
