EXECUTIVE SUMMARY

My research explores the ecological determinants of real-world population dynamics by combining empirical data, numerical simulations, and statistical models. I am especially interested in stochastic extinction and persistence, partially observed Markov processes, and population responses to perturbation. At present, my study systems include childhood diseases in the pre-vaccine era U.S., and mosquito population dynamics in Iquitos, Peru.

My core areas of expertise include: stochastic processes, numerical programming, and mechanistic simulation models; data visualization; time series spectral analysis; and generalized linear modeling. I favor open source computing tools: the R and C++ programming languages; PostgreSQL and SQLite database systems; and the geospatial tools PostGIS and QGIS. I employ reproducible research tools and best practices, including revision control with git.

I enjoy teaching and mentoring students from diverse backgrounds and experience levels, with a focus on quantitative skills, real-world examples, and student-led inquiry. I believe that rigorous quantitative training is vital to the next generation of data-driven scientists.

EDUCATION

University of New Mexico, Albuquerque *Summer 2014*
Ph.D. with Distinction in Biology (Disease Ecology with concentration in Integrative Biology)
Committee: Drs. Helen J. Wearing (advisor), James H. Brown, Melanie Moses, and Erik Erhardt
Title: Population and metapopulation ecology of childhood diseases in the pre-vaccine era United States

University of New Mexico, Albuquerque *Fall 2009*
Masters of Water Resources (Riparian Hydroecology)
Advisors: Drs. Bruce Thomson and Roy Jemison
Title: Estimating phreatophyte evapotranspiration from diel groundwater fluctuations in the Middle Rio Grande Bosque

University of Georgia, Athens *Fall 2001*
Bachelor of Science, Biochemistry and Molecular Biology
Advisor: Dr. James Omichinski

RESEARCH EXPERIENCE

Post-doctoral Researcher   Oct 2014 - July 2017
Departments of Entomology and Mathematics, NCSU   Raleigh, NC
· Data integration & statistical analysis of *Ae. aegypti* field spraying trials in Iquitos, Peru
· Continue development of Skeeter Buster, the *Aedes aegypti* population dynamics simulation model
· Mentor graduate students in Mathematics and Entomology

Research Assistant   Jan 2010 - Oct 2014
Wearing Lab, UNM Biology   Albuquerque, NM
· Conduct original research for publication and assist with grant writing
· Systems administrator and data manager
· Undergraduate training and mentorship

Hydrology Research Technician   Jan 2006 - Jan 2009
Rocky Mountain Research Station, U.S. Forest Service   Albuquerque, NM
· Conduct original research and prepare technical reports for U.S. Forest Service
· Collect and managed environmental monitoring data

Plant Genetics Lab Technician   Jun 2003 - Jun 2004
Malmberg Lab, UGA Plant Biology   Athens, GA
· Isolated DNA, Conducted PCR
· Design data entry and management system

NMR Lab Technician   Jan 2001 - Jun 2002
Omichinski Lab, UGA Biochemistry and Molecular Biology   Athens, GA
· Administer mixed Unix workstation cluster
· Evaluate linux hardware/software for high-performance NMR data visualization

GRANTS

Jun 2011 ($2,000). UNM PiBBS Student Enrichment Grant to attend SFI Complex Systems Summer School.

May 2010 ($500). EEID Conference Workshop travel grant.

Mar 2010 ($80,000). Center for Evolutionary & Theoretical Immunology (CETI) Seed Grant, contributing author. *Waning Immunity in Influenza and Whooping Cough.*

Aug 2009 ($\approx$\$50,000). Program in Interdisciplinary Biological and Biomedical Sciences (PIBBS), 2 year fellowship.

May 2007 ($4,400). UNM Graduate Research and Development grant. *Hydrological research in the Middle Rio Grande Bosque.*

AWARDS

Apr 2013 ($500). UNM Biology Department Scholarship.

Apr 2013 Graduate oral presentation, 2nd place. UNM Biology Research Day.

Apr 2010 ($500). UNM SRAC travel grant to attend useR 2010.

Apr 2010 Graduate poster presentation, 1st place. UNM Biology Research Day.

TEACHING

INSTRUCTOR

Elements of Statistics	Fall 2017 & Spring 2018, Kenyon College Statistics
Intro to Experimental Biology	Fall 2017 & Spring 2018, Kenyon College Biology
Probability for Scientists	Fall 2013, UNM Biology and Statistics

· Course designer, lead instructor
· Mixed undergraduate/graduate course (primarily undergraduate) covering introductory probability, statistics, and data analysis.

TEACHING ASSISTANT

Biology for Non-majors	Spring 2014, UNM Biology
Statistical Programming	Spring 2013, UNM Statistics

· Mixed undergraduate/graduate course (primarily graduate). Also guest lectured.

Mathematical Biology	Fall 2012, UNM Biology

· Mixed undergraduate/graduate course (primarily undergraduate). Also guest lectured.

Genetics	Spring 2009, UNM Biology
Ecology & Evolution	Fall 2008, UNM Biology

GUEST LECTURER

Ecology & Evolution of Animal Sex	Spring 2018, Kenyon College
Statistical Computing	Fall 2017, Kenyon College
Theoretical Ecology	Spring 2015, Univ. of Montana

WORKSHOPS AND TRAINING

Computational Skills for Scientists Training Workshop	Aug 2016, Univ. of Montana

· Guest lecturer

Industrial Math/Stat Modeling Workshop for Graduate Students	July 2015, NCSU

· Guest instructor, student mentor

Software Carpentry Workshop	Jan 2015, NCSU

· Teaching assistant, guest lecturer

UNM R Programming Group	Fall 2010 - Spring 2013, UNM

· Organized and led weekly R programming group. Participants included undergraduate and graduate students and professors

Ecology Workshop   May 2010, Univ. of Michigan
· Teaching assistant
· NSF-funded graduate training program, part of Ecology and Evolution of Infectious Disease conference

MENTORING

Spring 2015 - present. Robert Liberatore, Math Education Software Developer

Fall 2015 - Fall 2017. Michael Vella, NCSU Mathematics Ph.D. Student

Fall 2015 - Fall 2017. Gabriel Zilnik, NCSU Entomology Masters Student

Fall 2012 - Fall 2015. Joshua Nightingale, UNM Biology Undergraduate Student

Spring 2011 - Spring 2012. Nathan Cournoyer, UNM Biology Undergraduate Student

CONFERENCES AND PROFESSIONAL EVENTS

Sep 2015. Society of Vector Ecology Conference. Albuquerque, NM.

Nov 2014. American Society of Tropical Medicine and Hygiene Annual Conference. New Orleans, LA.

Jun 2014. Ecology and Evolution of Infectious Disease Conference. Colorado State University. Fort Collins, CO.

May 2013. Ecology and Evolution of Infectious Disease Conference. Pennsylvania State University. State College, PA.

May 2012. Ecology and Evolution of Infectious Disease Conference and Workshop. University of Michigan. Ann Arbor, MI.

Oct 2011. Rcpp R Programming Master Class. San Francisco, CA.

Aug 2011. Ecological Society of America Conference. Austin, TX.

Jun 2011. Santa Fe Institute Complex Systems Summer School. Santa Fe Institute. Santa Fe, NM.

Jul 2010. useR 2010 Conference. Gaithersburg, MD.

May 2010. Ecology and Evolution of Infectious Disease Conference and Workshop. Cornell University. Ithica, NY.

Aug 2009. Ecological Society of America Conference. Albuquerque, NM.

May 2007. National Groundwater Association Conference. Albuquerque, NM.

PROFESSIONAL SERVICE

Reviewer, PLOS Computational Biology

Reviewer, Transactions of the Royal Society of Tropical Medicine and Hygiene.

Reviewer, Ecology Letters.

Reviewer, Theoretical Ecology.

Grant reader, Graduate Research Allocations Committee (GRAC). UNM Biology.

SOFTWARE DEVELOPMENT

Fall 2014 - Fall 2017. Develop and maintain Skeeter Buster: a stochastic, spatially-explicit, agent-based C++ simulation model of *Aedes aegypti* population dynamics.

Spring 2013. Wrote code, documentation, and tests according to specifications of Drs. J. M. Rowland and C. Qualls for `discrimArts`: R package for probability distribution estimation.

2010 - 2012. Contributor to `Rcpp`: R package for C++ development.

2009 - 2012. Maintainer of `Rwave`: R package for continuous wavelet transforms.

2010 - 2011. Contributor to `xts` and `zoo`: R packages for time series handling and analysis.
